RESEARCH EXPERIENCE

University of Nebraska-Lincoln

2016 - 2020

Dissertation Research; Advisor: Glenn Ledder

Optimal control theoretical approach to resource allocation in annual plants

- Developed a two-resource model for resource allocation in annual plants.
- Used optimal control theory to determine the growth trajectory that maximizes fruit production over the course of a growing season.
- Implemented numerical methods to simulate the model in MATLAB.

University of Nebraska-Lincoln

Summer 2018

Graduate Research Assistant; Advisor: Adam Larios

Regularity of solutions to fractional Benjamin-Bona-Mahony equation

- Used numerical techniques to investigate the effects of incorporating a fractional differential operator on the smoothness of solutions to the BBM equation.

Hope College 2013-2014

Undergraduate Research Assistant; Advisor: Brian Yurk

Studied effects of climate change on growth of embryonic Callosobruchus maculatus

- Developed and implemented laboratory protocol for exposing embryos to varying environmental conditions and collecting data via digital microscopy.
- Employed a modified wavelet image processing algorithm with R and Java to examine effects of climate variation on the timing of key transition points in embryonic development.

Honors and Awards	Parents' Recognition Award, UNL Nominated by parents for making a difference in the lives of their stude:	2017 nts.
	Outstanding Qualifying Exam, UNL	2015
	Othmer Fellowship, UNL Merit-based three-year fellowship awarded to incoming graduate student	2014 ts.
	Albert E. Lampen Mathematics Prize, Hope College Awarded annually to two graduating seniors in mathematics.	2014
	Member of Phi Beta Kappa inde	ucted 2014
	Member Pi Mu Epsilon, Michigan Delta chapter inde	ucted 2014
	John H. Kleinheksel Mathematics Award, Hope College Awarded annually to select sophomore-level mathematics majors.	2012
	Presidential Scholarship, Hope College Merit-based scholarship at Hope College	2010
SERVICE MCM/ICM, Consortium for Mathematics and Its Applications The Mathematical Contest in Modeling and Interdisciplinary Con are international modeling contests each spring which challenge st with open-ended problems and write detailed reports of their wor first-round judge for either the ICM or MCM since 2021, and have of final judges to identify Finalist and Outstanding papers for the		s to engage ave been a on a panel
	Referee, Letters in Biomathematics	2021 - 2023
	New Student Enrollment, UNL Summer Worked with academic advisors and incoming freshmen to determine the placement based on their backgrounds and major requirements.	2019, 2020 eir math
	Nebraska Conference for Undergraduate Women in Mathematics, Department of Mathematics, UNL NCUWM is an annual conference open to undergraduate women mathe I volunteered to assemble informational packets and register conference	2019, 2020 maticians.
	Dean Search, College of Arts and Sciences, UNL Jan Served on a panel of 10 students who met with and evaluated each candi	nuary 2019 idate.
	Math Day, Department of Mathematics, UNL November 2 Proctored/coordinated throughout a day of high school mathematics confor approximately 1400 students across Nebraska.
