SERVICE

MCM/ICM, Consortium for Mathematics and Its Applications Since 2021. The Mathematical Contest in Modeling and Interdisciplinary Contest in Modeling are international modeling contests each spring which challenge students to engage with open-ended problems and write detailed reports of their work. I have been a first-round judge for either the ICM or MCM since 2021, and have served on a panel of final judges to identify Finalist and Outstanding papers for the ICM since 2023.

Referee, Letters in Biomathematics

Since 2021

# New Student Enrollment, UNL

Summer 2019, 2020

Worked with academic advisors and incoming freshmen to determine their math placement based on their backgrounds and major requirements.
